

ELEVATING YOUR CYBER SECURITY

In today's digital landscape, where cyberattacks are increasingly sophisticated, businesses must stay ahead of threats. Q-Feeds is a cybersecurity platform that provides up-to-date threat intelligence. By tracking and monitoring global threats and gathering data from over 2,500 trusted sources every 20 minutes, we help create a safer cyber world.

Q-Feeds strengthens your security with **continuous, actionable threat updates**, reducing the risk of cyberattacks. Our **threat intelligence** helps to align with regulations like **GDPR and NIS2**, as Q-Feeds helps safeguarding your infrastructure and data. With **pre-built integrations** for leading **Firewalls** and **SIEMs**, Q-Feeds is easy to implement and cost-effective. By identifying threats early, we help **prevent costly breaches** and cyber attack before damage occurs. As an **industry-agnostic solution**, Q-Feeds delivers threat intelligence to meet the needs of finance, healthcare, retail, and other sectors.

Sources of cyber threats include

- **Phishing Intel:** fraudulent emails/websites used to steal sensitive information.
- **Botnets IP's:** networks of compromised computers used for cyber attacks.
- **Dark web activities:** malicious actions on the hidden internet.
- **Business Intelligence:** threats reported by various commercial organizations.
- **Honeypots:** systems designed to attract and analyze cyber threats.
